# GCSE Psychology

## What is it all about?

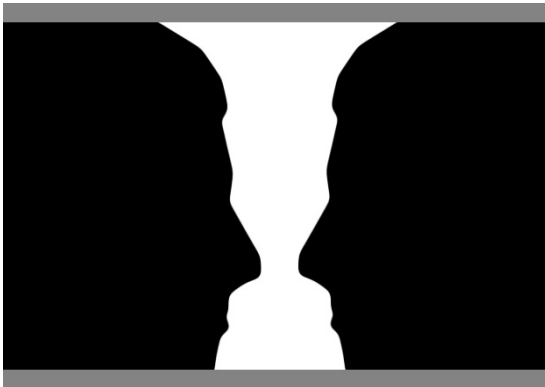

**A course from the AQA exam board that covers 8 main topics. Neuropsychology, Psychological problems, Developmental psychology, Language, thought and communication, Perception, Social influence, Memory and Research methods.**

## **What will you explore?**

**We will look at mental health explanations, why people behave in a certain way, how our brains works and why we perceive things differently to others.**

## Why study Psychology?

**It *will* interest you! You will be able to understand how the mind works and why people behave the way they do by the end of the course.**

**It will support your writing, mathematical and analysing skills. This course may interest you if you would like a career in a mental health organisation, counselling, teaching, forensics or working with children.**
