

Dear Parent/carer,

After half term, Year 5 children will begin using [MathsWatch](#) for homework to help prepare them for the transition to Year 6.

Children will be shown in class how to use the platform and access all of its features to support their learning independently. Each topic has a video tutorial and practice questions which they can access at any point to develop their knowledge and understanding.

We have given each pupil access to the Mathswatch website (mathswatch.co.uk). Please see information on how to log in below -

Log in to vle.mathswatch.co.uk

Username: 27JSmith@etonbury (This is for a student named Jane Smith)

Password: mathswatch

If you have any questions or queries, please email your child's maths teacher in the first instance.

Yours sincerely,

Harriett Oldham
