

Sixth Form Message

The deadline to complete the KS5 wider reading programme has now been reached and we have 9 students achieving silver standard and 2 students achieving gold standard! The reading programme is a great opportunity for students to obtain a certification which can be referred to in future applications. Reading academic articles at this levels also greatly enhances students' understanding of their courses, giving them plenty to talk about in their personal statements next year. Well done to all who took part and particularly to those who have received a reward:

Gold: Chloe H and Evie S.

Silver: Henry B, Alice B, Lilly C, Sam F, Olivia G, Martha-Alice G, Ellie H, Evie S, Thomas S, Madison S.

The UCAS deadline arrived this week and this year students have applied for a wide range of courses such as accounting and finance, law, psychology, Korean studies, animation, geology, construction management and forensic science to name but a few. It is one of my favourite parts of the job to support students getting onto courses or apprenticeships, as every application is unique and I feel I have been given a little deeper insight into our students' dreams and aspirations. Whilst offers of places have been flooding in, students now need to concentrate fully on their studies and getting the best grades possible to allow them to accept these amazing places.

Year 13s have been getting their mock results back and teachers will be going through their papers closely, so students can see on which areas they need to focus over the next few months. Teachers may be in contact to remind you of all the support that is available to students, so please encourage your child to make the most of the expert knowledge being given.

Preparations for the Juniors Valentines Disco are well under way. This annual event gives the Year 12s a first hand experience of organising an event. The logistics team are organising the music, food and decorations; the marketing team are producing advertisements and getting communication out to parents; the finance team are calculating potential incomings and outgoings to ensure we make a profit and the health and safety team are ensuring the event complies with regulations and is well staffed by producing risk assessments. This experience and development of transferable skills are great for students to reflect on in future applications, so please encourage your child to get involved.
