COURSE INFORMATION:

Primary Age 5-11 | KS1 & KS2

This course gives you qualified teacher status with a focus on teaching Year 1 to Year 6. You will learn the subject knowledge needed for all these year groups, with teaching practices across the age range and focused centre-based training sessions. You will gain some experience in early years and KS3 as well, so you know what the children learn before and after your qualifying age range.

Primary with SEND

This course trains you in how to teach your age range with in depth of knowledge of Special Educational Needs. Placements are in both mainstream schools and Special Schools. SEND delivery will be in different locations across Luton and Bedfordshire and run as a twilight sessions. Professional Studies and subject delivery will be in the hub location nearest to the candidate's address. *(Please see the supplementary flyer for further information on this course).*

Primary with Maths

This course trains you in how to teach your age range with an in-depth knowledge of maths. There will be an focus on how to lead maths and become later on in your career an expert in your school. You will teach a set amount of maths each week to develop your maths knowledge and teaching skills. There are 6 extra maths twilight learning sessions through the year. *(Please see the supplementary flyer for further information on this course).*

Secondary Age 9-16 | KS3 & KS4 | Subject Specific

This course gives you qualified teacher status to teach from Year 7 to Year 11, where you will learn the subject knowledge for your specialist subject and the professional teaching skills for teaching Secondary pupils. You will have some experience provided of KS2 and KS5 so you know what the pupils learn before and after your qualifying age range.

Secondary Age 11-18 | KS3 & KS4 | Business Studies

This course matches the training outlined above, with the age range of pupils from Year 7 to Sixth Form.

Undergraduate Degree | 3 years Education Studies with Qualified Teacher Status

(Please see the supplementary flyer for further information on this course).

BENEFITS:

School-based training means that you are immediately immersed in a school environment where you are learning from experienced mentors, while using and applying your knowledge and understanding of classroom learning through Teaching Practices.

You will participate in a range of training that focuses on developing reflective and critical evaluation of research and practice.

FINANCIAL SUPPORT

For tuition fee (non salaried) trainees

Student finance: Candidates may be eligible for the parent learning allowance and childcare grant for eligible trainees. Funding is tax free and does not have to be paid back. Entitlement can be up to 85% of childcare costs of up to £179.62 a week (1 child) or up to £307.95 a week (2 or more children). Parent learning allowance is up to £1,821 for the year.

All non salaried trainees can apply for student finance for a) course fees and b) maintenance loan. Payments back start when the threshold is met. See the DfE finance calculator to check if you are eligible www.gov.uk/student-finance-calculator.
