SKI TRIP 2025

Bormio, Italy

An amazing week to remember!

MR JONES - ASSISTANT PRINCIPAL

The February 2025 ski trip to Bormio, Italy was simply amazing. We were blessed with perfect conditions, enjoying a full week of blue skies and stunning alpine views. From the moment we arrived, the students embraced every challenge with enthusiasm, determination, and a fantastic sense of adventure.

The attitude and effort displayed on the slopes was truly inspiring. Regardless of experience, every student gave it their all, pushing themselves beyond their comfort zones and making incredible progress. By the end of the week, multiple groups had made it to 3,000m to take in the truly breathtaking views. All experiencing blue and red runs with some even taking on black pistes, which in itself is a huge achievement both physically and mentally!

Beyond skiing, the students' behaviour was exemplary. They supported each other throughout, celebrated successes, and took every opportunity to make the most of the trip. Whether it was carving down the slopes, tackling tricky turns, or simply soaking in the breathtaking mountain scenery, their energy and positivity never wavered.

A huge thank you must go to the incredible trip team, whose positivity, patience, and good humour helped I hope to make this trip a truly unforgettable experience for students.

From guiding students down the slopes, providing evening entertainment to awarding the infamous "Doughnut of the Day", they helped create an environment where memories were made, friendships grew stronger, and confidence soared.

This trip was about more than just skiing, it was about challenge, resilience, and creating unforgettable memories. It was a pleasure to lead this trip and see the students flourish, and I hope we have fuelled a lifelong love for the slopes.

Until the next trip... watch out for the February 2027 launch!

Bormio 2025
‘What a trip! From epic runs to unforgettable moments, we hope everyone had the time of their lives.’

ETA P.E
