

Dear Parent/Carer,

Theatre Shows for Year 6

As you know the year 6's are currently working incredibly hard for their SATs. We are amazed at how many children are attending homework club, both at lunchtime and after school.

To support their learning and as a special treat we are inviting the Quantum Theatre Company in next week to deliver a play called 'Shape, Space and Desperate Measures.' It is a play all to do with Geometry and measurement, packed full of Maths in an exciting space adventure, based around a Star Wars theme.

After half term, they are then coming back to perform a play called 'SPAG Girl', obviously based around fun revision facts for Spelling, grammar and punctuation.

To help fund these sessions we are asking for a £2.00 contribution, one payment for **both** shows. This can be paid to the school in cash. Please send it in with your child, who can hand it in to their form tutor in a named envelope marked 'Theatre Shows'.

This is an exciting endeavour for the school and we really hope that the children enjoy it.

Yours sincerely,

M White *Mr Wells* *Mrs McGuire*
