Etonbury Academy

Hi Dors

**Fundraising of £99.70 for Little Faces Schools, Kenya**

This is big thank you for your amazing collection of filled Smartie tubes. They really did add up 😊 - £99.70

This is an exceptionally poor community and without the education that Little Faces offers, the majority of the children would be on the streets or scavenging a living on the encroaching rubbish tips. We also provide two meals a day to the children as without this, their health was precarious, to say the least. Indeed, we hope that by providing a good education, teaching English and IT plus providing food, we are giving these children hope for a better, healthier future.

Your funds are going towards installing a playground in the new school grounds, once the school has been built next year. It will be the first time that these children have ever had a safe and secure place to play.

Very many thanks to all the children and parents who kindly donated towards this project.

THANK YOU

*Sally*
