Dear Parent/Carer,

**Re: Food Technology Ingredients Year 9 & 10**

Following on from a successful year last year we will continue to supply Food Tech ingredients for all years. Having evaluated the cost of ingredients to deliver the GCSE curriculum effectively we are going to need to ask for an increase in contributions this year. The tasks they are required to carry out involve a greater range and quantity of ingredients, for example portioning and cooking a chicken.

We are writing to ask for a contribution of £30 towards the cost of ingredients that your child will use in these lessons. This could be paid as a one off payment or as three termly payments. The first of these would be due before October half term, the second before February half term, and the third before Easter. We hope as many parents and carers as possible will feel able to contribute, alternatively you could continue to send in ingredients on a weekly basis. Students will still need to bring in a container to take their food home in. Payment for Food Tech ingredients should be made using the Parent Mail system. The cost will show on your parent account page. If your child has any allergies/dietary requirements or you have any questions relating to this please contact me at [jashby@bestacademies.org.uk](mailto:jashby@bestacademies.org.uk). Thank you in advance for your support.

Yours sincerely

Mrs J Ashby
