During the Summer Term you will not be set a specific homework each week. Instead, you will be expected to complete one task from each of the sections above: Projects, Writing Tasks and Drawing Tasks. Each task is worth a certain amount of credits. You must choose tasks that will give you 100 credits in total. You will be reminded of the dates that you need to bring in your homework so you will have plenty of time to complete it.

You will still receive weekly spellings plus the odd revision task for SPAG or Reading Comprehension.
